c) Classroom Teaching Learning Process Monitoring App (C-TLPM App)

Digital initiative by the department introduced during 2020-21 (July 2021) to monitor online/offline Teaching Learning Process during the COVID-19 second wave. It is available in two forms, Web Application for Desktop Users and Mobile Application. All the faculty of GDCs across the state are using TLP App to report and monitor teaching learning progress daily. Every College prepares course-wise timetables and map them to the respective teachers through the principal's dashboard of Web Application

The key features of this app are college-wise timetable mapping, student enrollment data, mandatory data upload by lecturers after every class with class room photograph. The expected outcomes are ensured lecturers and students attendance, timely corrective measures for poor attendance, monitored conduct of classwork, proper recouping of deviated classes, improved academic performance by monitoring of faculty performance by the Empowered Principals

Features:

- College wise Timetable is mapped
- Student enrolment data is prepopulated
- After every class, Lecturer must upload the data

Outcomes:

- Lecturers and students' attendance is ensured
- Corrective measures are being taken for poor attendance
- Conduct of classwork is monitored
- Deviated classes are being properly recouped
- Academic Performance is accounted for
- Phenomenal increase witnessed in the academic performance
- Principals have been empowered
- Timetable Mapping to lecturers and corresponding sections/classes.
- Attendance entry of the students.
- Transfer Class from a lecturer to another lecturer as per dynamic requirements.
- Rescheduling of Classes for administrative flexibility
- Offline / Online mode of Class reporting to overcome network issues.
- View Reports of Individual, College, District, Zone, and State level.
- Feedback for betterment of the functionalitie

d) Internship Monitoring App (I-MAPP)

The key features of this app are database of industries, mapping students to industries for internships, mentoring and on-site monitoring of internship, monitoring student weekly tasks by mentors, trainers, and principals, task assignment with alerts for students, mentor feedback mechanism. The expected outcomes are provided internship opportunities with industry, monitored internship status of every student, efficient industry-student collaboration, enhancements in industry-student engagement and identified lapses and gaps for focus.

I - MAPP (Internship Monitoring APP)

Internship is mandatory as part of revised CBCS curriculum 2020-21, which is a tough task for colleges to implement alone. This Internship Monitoring App provides Internship opportunities to students with industry connect & monitors the status of every student in the state helping to easily identify the lapses and gaps to focus on. It's available in two (02) forms:

1. Web Application for Desktop users
2. Mobile App

The I-MAPP functionalities include

- Adding industries to the Database for “Industry Connect”
- Mapping students to various industries for internships as per industry connect.
- Mentoring & monitoring the students who are doing internship on-site.
- Monitoring the student weekly tasks by the mentor, trainer, and the principal.
- To Assign tasks to the students, which will be reflected in the student login, and he/she is alerted of the daily tasks list, enabling them to submit the task report with attachments (If required in the scheduled task).
- Mentor can submit his comments on the student task report so that the student can improve himself/ herself according to the guidance.

Desktop form of College Login:

The screenshot displays a web browser window with the address bar showing "103.39.134.234/CCE_IMap/Transactions/Welcome.aspx". The page header includes the logo of the Commissionerate of Collegiate Education, Government of Andhra Pradesh, and the title "Internship Monitoring Application". It also features portraits and names of Sri Y. S. Jagan Mohan Reddy (Hon'ble Chief Minister, Andhra Pradesh) and Sri Botcha Satyanarayana (Hon'ble Minister for Education, AP).

The main navigation bar contains links for Home, Transactions, Reports, Mappings, Masters, and GDCMKADAPA. The central content area welcomes users to the "Internship Monitoring Application".

Below the welcome message, there are three columns of information:

- Sri Y. S. Jagan Mohan Reddy**

f) FRAMS (Facial Recognition Attendance Management System)

The Government of Andhra Pradesh has come up with a ‘Facial Recognition’ based software solution for the Management of Attendance in Govt. organizations, namely “Facial Recognition Attendance Management System (FRAMS)”. The FRAMS is used to Manage / Monitor the attendance of all the Staff and Students of the Government Colleges in Andhra Pradesh under the aegis of the CCE.

Functionalities & Features

- The primary functionality of attendance capturing in FRAMS is based on ‘Facial Recognition and Presence’ of the staff or students.
- Mobile devices running on Android/iOS with a decent camera are the only required equipment to implement the utility at College/Classroom level.
- Students are registered in the FRAMS APP and organized into sections/classes. Similarly, staff are also registered in the APP based on facial recognition.
- Accordingly, Lecturers are mapped to sections as per the timetable.
- A lecturer needs to capture the image of self in FRAMS to mark self-attendance followed by capturing of the class through camera.
- The system recognizes facial differences between individuals with utmost accuracy and marks attendance, for instance, it can differentiate between twins, and between stationary objects (like pictures) and people.
- It accepts the attendance within the radius of Geo-coordinates of the college.
- Re-scanning adds the attendance of any individual(s) left out of the attendance.
- Encrypted Students’ & Staff data from Janmabhoomi portal of the Govt. of A.P. is used for managing attendance.

Outcomes

- Use of simple tool like a mobile device helps in averting problems that arise with biometric devices in practice.
- High accuracy of attendance management in relatively less time.
- Unbiased attendance using facial capturing and detecting.
