

d) Internship Monitoring App (I-MAPP)

The key features of this app are database of industries, mapping students to industries for internships, mentoring and on-site monitoring of internship, monitoring student weekly tasks by mentors, trainers, and principals, task assignment with alerts for students, mentor feedback mechanism. The expected outcomes are provided internship opportunities with industry, monitored internship status of every student, efficient industry-student collaboration, enhancements in industry-student engagement and identified lapses and gaps for focus.

I - MAPP (Internship Monitoring APP)

Internship is mandatory as part of revised CBCS curriculum 2020-21, which is a tough task for colleges to implement alone. This Internship Monitoring App provides Internship opportunities to students with industry connect & monitors the status of every student in the state helping to easily identify the lapses and gaps to focus on. It's available in two (02) forms:

1. Web Application for Desktop users
2. Mobile App

The I-MAPP functionalities include

- Adding industries to the Database for “Industry Connect”
- Mapping students to various industries for internships as per industry connect.
- Mentoring & monitoring the students who are doing internship on-site.
- Monitoring the student weekly tasks by the mentor, trainer, and the principal.
- To Assign tasks to the students, which will be reflected in the student login, and he/she is alerted of the daily tasks list, enabling them to submit the task report with attachments (If required in the scheduled task).
- Mentor can submit his comments on the student task report so that the student can improve himself/ herself according to the guidance.
